Summary

Final-year Computer Science Engineering student with a passion for web development and innovative technology solutions. Proficient in building responsive, user-focused applications using modern web technologies like React, Node.js, and Python. Skilled in creating dynamic, visually appealing projects with a strong foundation in data structures and algorithms. Committed to delivering high-quality solutions.

Education

B.Tech, Computer Science Engineering Expected 2026
Rajkiya Engineering College, Mainpuri
Affiliated with Dr. APJ Abdul Kalam Technical University, Lucknow
Coursework: Data Structures, Algorithms, Web Development, Databases
CGPA: 7.5/10

Skills

Languages: Python, JavaScript, C++
Web Development: HTML5, CSS3, React, Node.js, Tailwind CSS
Tools: Git, Figma, VS Code
Concepts: Data Structures, Algorithms, REST APIs

Projects

Portfolio Website

- Developed a responsive portfolio using HTML, CSS, JavaScript, and Tailwind CSS.
- Implemented animations and 3D tilt effects for an engaging user experience.

Task Management App

- Built a web-based task manager with React and Node.js.
- Incorporated real-time updates and drag-and-drop functionality.

E-Commerce Dashboard

- Created a data visualization dashboard using Python and React.
- Optimized for performance with a RESTful API backend.
